

6014 Delmar Boulevard

St. Louis, MO
1999

PROJECT OVERVIEW

This A&P grocery was hidden beneath layers of aluminum siding and a false facade until a careful renovation by StLDA. The effort earned a 2000 Landmarks of St. Louis preservation award and contributes to a revitalizing Loop East neighborhood. It also provides two retail spaces and the offices of the firm all within a short distance from the Metro Link.

a 1941 drawing by the Saum Architects was used to reconstruct the facade and

before....

....after

commercial renovation
