

Residence Inn by Marriott

**St. Louis, Missouri
2003**

PROJECT OVERVIEW

Adapted to the dense urban setting of a St. Louis business district, this eight-story, concrete frame and Masonry complex, is a joint effort of architect, St. Louis Design Alliance and Dominion Hospitality.

Catering to the business traveler and vacationing family, this 188-room extended-stay hotel offers studio lofts, as well as one and two bedroom suites. Other amenities include a business center, meeting rooms, pool, and an exercise room.
