

**Clayton  
Residence**

**St. Louis, Missouri  
2009**

**PROJECT OVERVIEW**

*St. Louis Design Alliance transforms this stately brick residence. The inside stairs have been reconfigured and the living space in the lower level opened up to make the house more usable. Upstairs a master bedroom and bath was added and a new pool house built next to the existing garage. The outside trim was redesigned to reflect the attributes of the Georgian style architecture.*
